PROFESSIONAL SUMMARY

DevOps & Cloud Engineer with hands-on experience in CI/CD automation, Docker, Kubernetes, Azure cloud infrastructure, and Linux administration. Skilled in Infrastructure as Code (IaC), deployment automation, monitoring, and cloud-native application management using Jenkins, Terraform, Prometheus, and Grafana. Experienced in improving deployment reliability, optimizing operational workflows, and implementing scalable DevOps solutions across cloud and on-premises environments.

TECHNICAL SKILLS

Cloud Platforms: Microsoft Azure, Azure VMs, VNet, Subnets, NSG, Azure Load Balancer, Azure AD

DevOps Tools: Docker, Kubernetes, Jenkins, Git, GitHub, Terraform, Ansible

Monitoring: Prometheus, Grafana

Scripting & Automation: Python, Bash

Operating Systems: Linux (Ubuntu), Windows

PROFESSIONAL EXPERIENCE

DevOps Engineer

Aug 2024 – Present

Flipkart Internet Pvt. Ltd.

- Automated infrastructure provisioning and deployments using Jenkins and Terraform across Azure and on-prem environments.
- Containerized applications using Docker and orchestrated scalable workloads using Kubernetes Deployments, Services, Ingress, and ConfigMaps.
- Configured Prometheus and Grafana dashboards for real-time monitoring, metrics visualization, and alerting.
- Improved CI/CD pipelines, reducing deployment time by 40% and increasing release efficiency across multiple environments.
- Managed Linux servers, ensuring high availability, performance optimization, and operational stability.
- Collaborated with development and QA teams to streamline deployment workflows and release processes.

Application Support Engineer (Automation & Infrastructure)

Aug 2023 – Jul 2024

Flipkart Internet Pvt. Ltd.

- Automated routine operational tasks using Python and SQL scripts, reducing manual effort by 50% and improving operational efficiency.
- Monitored applications and infrastructure, performed troubleshooting, and resolved production issues within SLA timelines.
- Managed Linux-based environments including system administration, log analysis, and process monitoring.

PROJECTS

Azure 3-Tier Web Application Deployment

Azure, Docker, Terraform, React, Node.js, MySQL, Linux, Git, NGINX

- Designed and deployed a scalable 3-tier application on Microsoft Azure.
- Containerized React frontend and Node.js backend applications using Docker.
- Configured Azure networking components including VNet, Subnets, NSGs, and Load Balancer.
- Deployed applications on Azure VMs and configured NGINX reverse proxy for secure API routing.
- Used Git/GitHub and Terraform for version control and Infrastructure as Code (IaC).

EDUCATION

B.Tech in Computer Science Engineering

Galgotias University

2023
